PROJECTS

(View all **36** of my apps by searching “**Daniel Yaakob**” on the iOS App Store.)

Mayo Clinic iOS App (React Native, Swift)

- Created an iOS app for their simulation labs at the request of Mayo Clinic.

Camo Tracker (React Native, Swift, PHP, SQL)

- A full stack iOS app that allows users to track their camo unlocks in the popular game MW2.

Sixle (React Native, Swift, Java)

- A twist on the popular game 'Wordle' but with six letter words.

C Compiler (Python)

- A tokenizer, lexical analyser, and parser that will compile C Code properly.
